Aceto Corporation, a New York corporation (the "Registrant"), is filing this Notification of Late Filing on Form 12b-25 with respect to its Annual Report on Form 10-K for the fiscal year ended June 30, 2018 (the "Annual Report"), because the Registrant has encountered a delay in completing the financial statements for the fiscal year ended June 30, 2018 and, therefore, was unable to complete the Annual Report within the prescribed time period without unreasonable effort or expense. Shortly before the anticipated timely filing of the Annual Report, a decision was made that further analysis would be required to determine if it would be appropriate for the Registrant to record an additional valuation allowance in the fiscal year ended June 30, 2018 with respect to some or all of the \$76.5 million domestic net deferred tax assets. The analysis to complete such determination remains ongoing. The Registrant will file the Annual Report within 15 calendar days of the Annual Report's prescribed due date.

EXHIBIT A

For the fiscal year ended June 30, 2017, the Registrant recorded net income of \$11.4 million, or \$0.35 per diluted share.

As previously disclosed, for the nine months ended March 31, 2018, the Registrant recorded a net loss of \$210.0 million, or \$5.97 per diluted share. That loss resulted in substantial part from impairment charges of \$256.3 million relating to the Registrant's Rising business segment. Those impairment charges consisted of \$235.1 million of goodwill impairment charges and a \$21.2 million write-down of other identifiable intangible assets. Adjusted net income (Non-GAAP) for the nine months ended March 31, 2018 was \$18.5 million. See Schedule I to this Exhibit for a reconciliation of the Registrant's net loss (GAAP) to adjusted net income (Non-GAAP) for the nine months ended March 31, 2018.

As described in Part III, the ongoing analysis of whether an additional allowance is required for the Registrant's \$76.5 million net domestic deferred tax assets remains in process. If the Registrant determines that no additional deferred tax valuation allowance is required to be taken, the Registrant expects to record a net loss for the year ended June 30, 2018 of approximately \$240 million (or approximately \$6.80 per diluted share), reflecting a net loss for the Registrant's fourth quarter ended June 30, 2018 of approximately \$30 million (or approximately \$0.84 per fully diluted share). Results for both the three and twelve months ended June 30, 2018 reflect the fact that the Company's net sales and gross profit were negatively impacted by sustained generic industry headwinds and higher-than-expected failure to supply penalties at the Registrant's Rising business segment. The Registrant's results also reflect substantial expenses incurred by the Registrant to address the issues that led to the above-mentioned impairment charges taken as of March 31, 2018.

As noted above, the Registrant is currently assessing whether it will be necessary to increase its valuation allowance with respect to some or all of its approximate \$76.5 million in net domestic deferred tax assets. To the extent that additional allowances are taken, the Registrant's net loss for the year ended June 30, 2018 will increase over the net loss of approximately \$240 million that will be recorded if no additional tax reserves are taken.

Pending completion of the Registrant's fiscal 2018 audit, all dollar amounts relating to the fiscal year ended June 30, 2018 are estimates and, although deemed reliable, are subject to change.
